Underlying fund

AXA Framlington UK Select Opportunities

The CLI AXA Framlington UK Select Opportunities fund invests solely in the AXA Framlington UK Select Opportunities fund (except for a small cash balance, which may be held from time to time). This ensures that whilst the unit price of the CLI fund will differ from that of the Framlington fund, the performance of the two will closely correspond.

Note 1: Our funds are rated according to the level of volatility they show relative to other Canada Life International funds, as measured by the monthly standard deviation of returns. Standard deviation gives a guide as to the probability of how much a fund price will rise or fall over one month. The sales aid, 'Investment Risk Ratings - your questions answered' which can be found at www.canadalifeint.com, explains the methodology in more detail. Volatility is one way of measuring the potential risk of a fund and should not be relied upon in isolation for making investment decisions. **The ratings are generally reviewed once a year and we do not notify policyholders or financial advisers of any change to a fund's volatility rating.**
