

Fund objective

The objective of the Fund is to achieve long-term capital growth by investment in companies listed, quoted and/or traded in the UK and in companies which are headquartered or have a significant part of their activities in the UK which are quoted on a regulated market outside the UK. The Manager actively manages the portfolio. The securities of companies listed, quoted and/or traded in the UK but domiciled elsewhere and the securities of companies traded on PLUS may be included in the portfolio.

The stated objective is that of the underlying fund. We will endeavour to keep this up to date. However policyholders will not be advised of any minor changes to the stated objective.

Underlying fund

Artemis UK Growth

The CLI Artemis UK Growth fund invests solely in the Artemis UK Growth fund (except for a small cash balance, which may be held from time to time). This ensures that whilst the unit price of the CLI fund will differ from that of the Artemis fund, the performance of the two will closely correspond.

Note 1: Our funds are rated according to the level of volatility they show relative to other Canada Life International funds, as measured by the monthly standard deviation of returns. Standard deviation gives a guide as to the probability of how much a fund price will rise or fall over one month. The sales aid, 'Investment Risk Ratings - your questions answered' which can be found at www.canadalifeint.com, explains the methodology in more detail. Volatility is one way of measuring the potential risk of a fund and should not be relied upon in isolation for making investment decisions. **The ratings are generally reviewed once a year and we do not notify policyholders or financial advisers of any change to a fund's volatility rating.**
