<sup>1</sup>

The OCF is the charge made by the fund manager for running the fund and is accounted for within the unit price. The OCF does not include any product charges, please refer to your product details for more information.

<sup>2</sup>

Volatility groups run from 1 (least volatile) to 4 (most volatile) for the funds available from Canada Life and are generally reviewed once a year; we do not notify policyholders or advisers of any changes. For more information please see our guide to understanding volatility, available on our website.

## Fund objective

The Fund aims to provide a return on your investment (generated through an increase in the value of the assets held by the Fund and/or income received from those assets) of 3.5% above 3 month GBP LIBOR (gross of fees) over the medium to long term (5 consecutive years beginning at the point of investment). The Fund invests at least 70% of its total assets in fixed income securities (such as bonds) on a global basis and money-market instruments (i.e. debt securities with short term maturities). The fixed income securities and money-market instruments may be issued by governments, government agencies, companies and supranationals (e.g. the International Bank for Reconstruction and Development).

The fund objective has been provided by the underlying fund manager via FE

### Warnings

Prior to 19 March 2015 this fund was called Canlife BlackRock Global Bond Fund and sat within the ABI Global Bond sector. Due to the underlying BlackRock fund changing its investment objective, name and sector on 19 March 2015 performance figures should only be compared against the new sector since 19 March 2015.

Some funds operate a securities lending process under which assets held by the fund may be lent to another regulated financial institution. Securities lending is quite common and allows a fund to generate additional income from the fees it charges borrowers. There are controls to reduce the risk of any loss to the fund should the borrower become unable to return the assets. These can include obtaining high quality assets as security from the borrower and employing market agents to administer the programme and cover any losses. Canada Life closely monitors the institutions we lend to and the agents we work with. Managers of external funds are responsible for their own controls to ensure that the risks are appropriately managed.

More information on the underlying fund can be found by visiting the investment manager's own website.
