

Fund objective

The investment objective of CF Midas Balanced Income Fund is to provide a high level of growing income by investing in a balanced and well diversified portfolio of UK and International equities, fixed interest securities including government and corporate bonds. Investments will also be made in regulated collective investment schemes, money markets and cash deposits to provide further diversification to the Sub-fund in accordance with applicable regulations.

The stated objective is that of the underlying fund. We will endeavour to keep this up to date. However policyholders will not be advised of any minor changes to the stated objective.

Underlying fund

CF Midas Capital Balanced Income

The Canlife CF Midas Balanced Income Life Fund invests solely in the CF Midas Balanced Income OEIC (except for a small cash balance, which may be held from time to time). This ensures that whilst the unit price of the Canlife fund will differ from that of the CF Midas Capital fund, the performance of the two will closely correspond, subject to different charges and any effects due to the treatment of tax.

Note 1: Our funds are rated according to the level of volatility they show relative to other Canada Life funds, as measured by the monthly standard deviation of returns. Standard deviation gives a guide as to the probability of how much a fund price will rise or fall over one month. Volatility is one way of measuring the potential risk of a fund and should not be relied upon in isolation for making investment decisions. **The ratings are generally reviewed once a year and we do not notify policyholders or financial advisers of any change to a fund's volatility rating.**
