

# MONEY FUND - STERLING CLASS

## January 2018 Factsheet

### FUND OBJECTIVE

The objective of Lloyds Money Fund Limited is to seek to achieve a competitive rate of return in capital terms so far as is commensurate with minimum risk to capital. The policy of the Sterling Class is to invest in deposits which are available in the Eurocurrency markets (including deposits placed with members of the Lloyds Banking Group), which are denominated in sterling.

As a roll-up fund, any income generated will be retained in the Fund, rather than paid out in the form of dividends to shareholders.

### FUND PERFORMANCE

|              | 31/12/16 to<br>31/12/17 (%) | 31/12/15 to<br>31/12/16 (%) | 31/12/14 to<br>31/12/15 (%) | 31/12/13 to<br>31/12/14 (%) | 31/12/12 to<br>31/12/13 (%) |
|--------------|-----------------------------|-----------------------------|-----------------------------|-----------------------------|-----------------------------|
| Sterling (£) | -0.18                       | 0.01                        | 0.18                        | 0.10                        | 0.11                        |

The figures show the performance growth over 5 years as discrete 12 month periods, on a mid price basis. All charges and fees, except any initial charge, have been included in the performance figures. Source: FE.

### PERCENTAGE GROWTH

Past performance should not be seen as an indication of future performance.

### IMPORTANT INFORMATION

Whilst the price of a share will normally rise as income accrues in respect of underlying investments, such price may fall in certain circumstances such as a substantial change in interest rates.

The value of investments and the income from them can go down as well as up and cannot be guaranteed. Investments in a currency other than the shareholder's own currency, or in a fund that invests in securities denominated in currencies other than its own base currency, will be subject to the movements of foreign exchange rates, which may cause an additional favourable or unfavourable change in value. Consequently, investors may, on selling their shares, receive an amount greater or less than their original investment.

\*The Net Annualised Return is a projected return based on the current deposits held within the portfolio. As a result this figure is not a guarantee of future returns.
