

30 September 2018

This document is intended for use by individuals who are familiar with investment terminology. Please contact your financial adviser if you need an explanation of the terms used.

<p>This fund is designed for customers invested in Standard Life Active Retirement. It may not be suitable as a standalone fund or if you're building your own portfolio from our full fund range.</p> <p>Standard Life Active Retirement is made up of three pots. This fund is pot 1. Pot 1 holds lower risk investments designed to remain fairly stable. This pot is ordinarily used as the first source to pay out any regular income or lump sum withdrawals.</p> <p>The fund holds one or more investment funds such as those investing in money market instruments and/or short term bonds (loans to a government or company that typically have less than 5 years to go until their maturity date).</p> <p>The fund's holdings are reviewed regularly and may change over time. The fund doesn't provide any guarantee about the level of retirement income you'll receive.</p> <p>The fund price is not guaranteed by Standard Life and there could be circumstances where the fund price may fall. A fall might happen if, for example, there is a default by the institution where some of the money is held or where there is an adverse market movement in the value of one or more of the securities held due to, for instance, a credit event or where the anticipated repayment term of an asset is extended. A fall may also happen if fund income falls so low as to be less than the charges applied to the fund.</p> <p>The value of investments within the fund can fall as well as rise and is not guaranteed - you may get back less than you pay in.</p> <p>The fund may use derivatives for the purposes of efficient portfolio management, reduction of risk or to meet its investment objective if this is permitted and appropriate.</p> <p>The sterling value of overseas assets held in the fund may rise and fall as a result of exchange rate fluctuations.</p>	Pension Investment Fund
	Blended Fund
	Quarterly

Launch Date	March 2015
Standard Life Current Fund Size (30/09/2018)	£92.6m
Standard Life Fund Code	JJNA

The investment performance you will experience from investing in the Standard Life version of the fund will vary from the investment performance you would experience from investing in the underlying fund directly. This will be as a result of a number of differences, such as charges, tax and timing of investment.
