

31 December 2020

This document is intended for use by individuals who are familiar with investment terminology. Please contact your financial adviser if you need an explanation of the terms used.

<p>The SL BlackRock ACS World ESG Equity Tracker Pension Fund invests primarily in the BlackRock ACS World ESG Equity Tracker Fund. The aim of the BlackRock ACS World ESG Equity Tracker Fund is summarised below.</p> <p>The Fund is a sub-fund of BlackRock Authorised Contractual Scheme I taking the form of a Co-ownership Scheme. As a consequence of this, the Fund may be treated as tax transparent for the purpose of income and/or capital gains by relevant taxing jurisdictions. Each investor should take appropriate professional advice as to the tax treatment of their investment in the Fund. Investors in the Fund must be Eligible Investors as defined in the Fund's prospectus and must have completed all relevant documentation prior to the purchase of units in the Fund. The Fund aims to provide a return on your investment (generated through an increase to the value of the assets held by the Fund and/or income received from those assets) by tracking closely the performance of the MSCI World ESG Focus Low Carbon Screened Index, the Fund's benchmark index (the "Benchmark Index"). The Fund invests in equity securities (e.g. shares) of companies that make up the Benchmark Index. Derivatives may also be used for investment and efficient portfolio management purposes (i.e. the price of an investment is based on one or more underlying asset). The use of derivatives is expected to be limited. The Benchmark Index aims to reflect the performance characteristics of a subset of equity securities within the MSCI World Index ("Parent Index") and seeks to maximise exposure to positive environmental, social and governance (ESG) factors while minimising the carbon exposure. The Fund may obtain indirect exposure (through including but not limited to, derivatives and units in collective investment schemes) to securities considered not to satisfy the ESG criteria.</p> <p>The value of any investment can fall as well as rise and is not guaranteed – you may get back less than you pay in.</p> <p>For further information on the BlackRock ACS World ESG Equity Tracker Fund, please refer to the fund manager fact sheet, link provided below.</p> <p>Standard Life does not control or take any responsibility for the content of this.</p> <p>BlackRock ACS World ESG Equity Tracker - Fund Factsheet http://webfund6.financialexpress.net/clients/StandardLife/FS.aspx?Code=PPZQ&Date=01/12/2020</p>	International Investment Fund

Notes: The information shown relates to the past. Past performance is not a guide to the future. The value of your investment can go down as well as up. For the relevant charges on your policy please refer to your policy documentation.

Where a fund holds overseas assets the Sterling value of these assets may rise and fall as a result of exchange rate fluctuations.

Definition: Volatility Rating - The volatility rating of a fund indicates how much the fund price might move compared to other funds. The higher the volatility rating, the less stable the fund price is likely to be. You can use this to help you decide how much risk you're comfortable taking with your investments. Volatility ratings are calculated on a scale of 0-7.

Money Market - may include bank and building society deposits, other money market instruments such as Certificates of Deposits (CDs), Floating Rate Notes (FRNs) including Asset Backed Securities (ABSs) and allowances for tax, dividends and interest due if appropriate.
