† FE Crown Fund Ratings is a quantitative based ratings system founded on historical performance, volatility and consistency. Funds are ranked against a relative benchmark chosen by FE with the lowest-rated funds carrying a single crown, and the highest awarded five crowns. Funds without a three-year track record are not rated. However, in some cases a rating is applied to funds whose underlying fund carries a three-year track record. FE Crown Ratings are produced solely by FE and its accuracy or completeness cannot be guaranteed.

**The risk descriptions and ratings provided are intended as a guide only and should not be relied on in isolation to make investment decisions. Risk ratings are calculated and provided by a third party and are not a recommendation by Zurich as to the suitability of a fund for investment. Fund objective

The fund is a US Dollar denominated open ended fund, which aims to achieve a high level of income as well as capital growth, predominantly through a diversified portfolio of MENA debt securities of varying maturities along with cash and other ancillary instruments, such as deposits. The fund may also take on exposure to issuers outside the MENA region provided a significant part of their business activity is derived in the region. Additionally, certain share classes of the fund will also distribute income on a quarterly basis. Declarations will be made at the end of March, June, September and December.
