† FE Crown Fund Ratings is a quantitative based ratings system founded on historical performance, volatility and consistency. Funds are ranked against a relative benchmark chosen by FE with the lowest-rated funds carrying a single crown, and the highest awarded five crowns. Funds without a three-year track record are not rated. However, in some cases a rating is applied to funds whose underlying fund carries a three-year track record. FE Crown Ratings are produced solely by FE and its accuracy or completeness cannot be guaranteed.

The investment team looks for equity securities that it believes will benefit from rising gold and other precious metals prices over the long term.
