### Property Life

The investment objective of this fund is to provide investors with a combination of income and growth of capital consistent with a diversified commercial property portfolio. The Fund will generally invest in UK commercial property. It may also invest directly or indirectly in any UK property and continental European commercial property.

The value of property assets is generally a matter of a valuer's opinion rather than fact.

We reserve the right to defer the cancellation of units and to postpone the date on which the unit prices are calculated by up to six months. This is because the underlying assets may not always be readily realisable.

In addition to the AMC the Fund suffers a portion of the property related expenses currently around 0.36%.
