

We've written this fund factsheet assuming you have some experience of investing. This means that although we have tried to write as much as possible in plain language, we may have used certain words or phrases that might not be familiar to you, particularly if you are new to investing. Its purpose is to help you understand how the fund is invested and performing. You should not use it on its own for making investment decisions. It is not an offer to buy or sell any investments or shares. If there's something you don't understand, please contact your adviser. If you don't have an adviser, please call us, we can help you find one near you.

Fund objective

The fund aims to provide a balance of income and capital growth by applying active asset allocation techniques to a mainly passive investment strategy. The fund will invest mainly in equities and fixed-interest investments or instruments that track the returns of equity and fixed-interest as well as investing in alternative asset classes, some of which may be actively managed. The fund will comprise a mixture of income-generating assets and assets with scope for capital growth in real terms. As a result, there may be some risk to capital.

Fund availability

This fund is closing on 11 November 2019

Fund features

This fund invests in assets which have the potential to produce good longer term returns above inflation. The returns will have less fluctuation than investing fully in equities and over some periods of time the value of your investment can fall.

Things you need to know

We've based this information on our current understanding of law and practice. We make every effort to ensure that this information is helpful, accurate and correct but it may change or may not apply to your personal circumstances. Before taking any action you should always check with an appropriate adviser, as we cannot accept responsibility for any action taken on the basis of this information alone.

All funds carry some risk and you should consider these risks before making an investment decision. The value of investments and any income from them is not guaranteed and can fall as well as rise and will be reduced in real terms by the effects of inflation. The main factors which may increase the risk of this fund include:

- the amount held in overseas assets,
- any concentration in specific areas or sectors,
- the amount invested in property or property shares,
- the extent to which the fund invests in fixed interest assets.

Other charges which reduce the number of units you hold may apply. For further information please refer to your product Terms and Conditions.

For a more detailed explanation and other useful information about investments, please refer to our guide - "Making investments clearer - a guide for you", which can be found at www.zurich.co.uk.

For investments made into 7IM AAP funds before 1 January 2013, 7IM will make additional payments, based on the value of the holdings in these funds, to certain financial adviser firms. Any additional payments will be paid from 7IM's management charge and are included in the fund charges disclosed to you. Your adviser will have informed you if this arrangement applies to your investment.

Source: Financial Express as at 31/10/2019. You shouldn't use past performance as a suggestion of future performance. It shouldn't be the main or sole reason for making an investment decision. The value of investments and any income from them can fall as well as rise and will be reduced in real terms by the effects of inflation. You may not get back the amount you invested. HM Revenue and Customs (HMRC) practice and law are complex. Tax concessions are not guaranteed, their value will depend on individual circumstances and may change in the future.

Fund performance data is based on a selling price basis and doesn't take into account fees and expenses which are specific to individual plans. Details are available on request.
