

We've written this fund factsheet assuming you have some experience of investing. This means that although we have tried to write as much as possible in plain language, we may have used certain words or phrases that might not be familiar to you, particularly if you are new to investing. Its purpose is to help you understand how the fund is invested and performing. You should not use it on its own for making investment decisions. It is not an offer to buy or sell any investments or shares. If there's something you don't understand, please contact your adviser. If you don't have an adviser, please call us, we can help you find one near you.

Fund objective

This fund aims to provide a return, by way of income with some capital growth. There may be a moderate risk to capital. The fund invests predominantly in a range of collective investment vehicles and securities managed by selected fund managers. While income-generating assets are likely to represent a significant part of the portfolio, the portfolio may also include assets with scope for capital growth in real terms. The fund may use different asset classes, with a substantial proportion in fixed-interest. The fund may also invest in money market instruments and deposits.

Fund availability

This fund is closing on 18 November 2019

Fund features

This fund invests in assets which have the potential to produce moderate and stable longer term returns. The returns are expected to fluctuate in value less than equities and over some periods of time the value of your investment can fall.

Things you need to know

We've based this information on our current understanding of law and practice. We make every effort to ensure that this information is helpful, accurate and correct but it may change or may not apply to your personal circumstances. Before taking any action you should always check with an appropriate adviser, as we cannot accept responsibility for any action taken on the basis of this information alone.

All funds carry some risk and you should consider these risks before making an investment decision. The value of investments and any income from them is not guaranteed and can fall as well as rise and will be reduced in real terms by the effects of inflation. The main factors which may increase the risk of this fund include:

- the amount invested in equities,
- the split between government and corporate fixed interest,
- the extent to which the fund invests in high yield fixed interest assets,
- the amount held in overseas assets.

Other charges which reduce the number of units you hold may apply. For further information please refer to your product Terms and Conditions.

For a more detailed explanation and other useful information about investments, please refer to our guide - "Making investments clearer - a guide for you", which can be found at www.zurich.co.uk.
