

We've written this fund factsheet assuming you have some experience of investing. This means that although we have tried to write as much as possible in plain language, we may have used certain words or phrases that might not be familiar to you, particularly if you are new to investing. Its purpose is to help you understand how the fund is invested and performing. You should not use it on its own for making investment decisions. It is not an offer to buy or sell any investments or shares. If there's something you don't understand, please contact your adviser. If you don't have an adviser, please call us, we can help you find one near you.

CT UK EQUITY ALPHA INCOME FUND	2.78%
THREADNEEDLE (LUX) SICAV - GLOBAL CORPORATE BOND -XGH-CAPITALISATION	2.66%
CT ASIA FUND	2.20%

### Fund objective

The Threadneedle Managed Equity & Bond fund (the underlying 'Fund') aims to provide a combination of long-term capital growth and income. It looks to outperform a composite index over rolling 3-year periods, after the deduction of charges. The composite index comprises:

- 35% MSCI ACWI ex UK Index
- 31.5% Bloomberg Barclays Global Aggregate ex GBP (GBP Hedged) Index
- 15% FTSE All- Share Index
- 13.5% Bloomberg Barclays Sterling Aggregate Index
- 5% Sterling Overnight Index Average (SONIA)

This fund is actively managed, and invests at least 80% of its assets in other funds. The fund usually invests in other Threadneedle funds, however, funds managed by companies outside the Threadneedle group may also be held, when this is considered appropriate. These funds may invest worldwide. The fund focuses on investment in funds providing exposure to equities (company shares), and bonds (including corporate and government bonds). The balance of the exposure to these different asset types may vary over time, however, equity exposure will usually not exceed 60% of the fund's value, with at least 30% exposure maintained to bonds, under normal market conditions.

The fund may also hold money market instruments, deposits, cash, and near cash. Derivatives may be used with the aim of reducing risk or managing the fund more efficiently, and up to 20% of the value of the fund may be invested in funds that use derivatives for investment purposes. Derivatives are sophisticated investment instruments linked to the rise and fall of the price of other assets.

### Fund features

This fund invests in assets which have the potential to produce good longer term returns above inflation. The returns will have less fluctuation than investing fully in equities and over some periods of time the value of your investment can fall.

### Asset split 1 (as at 31/07/2022)\*\*

Global Fixed Interest	23.8%	
North American Equities	16.4%	
International Equities	15.4%	
UK Equities	15.1%	
UK Fixed Interest	10.7%	
UK Gilts	9.5%	
Money Market	2.6%	
Asia Pacific ex Japan Equities	2.4%	
Japanese Equities	2.1%	
Others	2.2%	

\* This figure includes the charges and expenses that are deducted from the fund and are reflected in the unit price. Other charges which reduce the number of units you hold may apply. For further information please refer to your product Terms and Conditions.

\*\* Zurich sources its funds data from Financial Express. The date shown reflects the last available regional, sector and asset breakdown data provided by the fund's administrator to Financial Express. The timeliness of this data is affected by the speed and regularity of their publication by the fund administrator.

## Things you need to know

We've based this information on our current understanding of law and practice. We make every effort to ensure that this information is helpful, accurate and correct but it may change or may not apply to your personal circumstances. Before taking any action you should always check with an appropriate adviser, as we cannot accept responsibility for any action taken on the basis of this information alone.

All funds carry some risk and you should consider these risks before making an investment decision. The value of investments and any income from them is not guaranteed and can fall as well as rise and will be reduced in real terms by the effects of inflation. The main factors which may increase the risk of this fund include:

- the amount held in overseas assets,
- any concentration in specific areas or sectors,
- the amount invested in property or property shares,
- the extent to which the fund invests in fixed interest assets.

On 10 April 2021, the underlying fund converted from a Unit Trust regulated under the 'Undertakings for the Collective Investment in Transferable Securities' (UCITS) rules to an Open Ended Investment Company (OEIC) under the 'Non UCITS Retail Scheme' (NURS) regulations. The investment and borrowing powers of the fund have remained the same.

Other charges which reduce the number of units you hold may apply. For further information please refer to your product Terms and Conditions.

For a more detailed explanation and other useful information about investments, please refer to our guide - "Making investments clearer - a guide for you", which can be found at [www.zurich.co.uk](http://www.zurich.co.uk).

### Performance of ABI primary fund (over 5 years to 31/08/2022)

Source: Financial Express as at 31/08/2022. You shouldn't use past performance as a suggestion of future performance. It shouldn't be the main or sole reason for making an investment decision. The value of investments and any income from them can fall as well as rise and will be reduced in real terms by the effects of inflation. You may not get back the amount you invested. HM Revenue and Customs (HMRC) practice and law are complex. Tax concessions are not guaranteed, their value will depend on individual circumstances and may change in the future.

Fund performance data is based on a selling price basis and doesn't take into account fees and expenses which are specific to individual plans. Details are available on request.
