

We've written this fund factsheet assuming you have some experience of investing. This means that although we have tried to write as much as possible in plain language, we may have used certain words or phrases that might not be familiar to you, particularly if you are new to investing. Its purpose is to help you understand how the fund is invested and performing. You should not use it on its own for making investment decisions. It is not an offer to buy or sell any investments or shares. If there's something you don't understand, please contact your adviser. If you don't have an adviser, please call us, we can help you find one near you.

Fund objective

The Threadneedle Managed Bond fund (the underlying 'fund') aims to provide income with potential for long-term capital growth. It looks to outperform a composite index over rolling 3-year periods, after the deduction of charges. The composite index comprises:

- 56% Bloomberg Barclays Global Aggregate ex GBP (GBP Hedged) Index
- 24% Bloomberg Barclays Sterling Aggregate Index
- 10% MSCI ACWI ex UK Index
- 5% FTSE All-Share Index
- 5% Sterling Overnight Index Average (SONIA)

The fund is actively managed, and invests at least 80% of its assets in other funds. The fund usually invests in other Threadneedle funds, however, funds managed by companies outside the Threadneedle group may also be held, when this is considered appropriate. These funds may invest worldwide. The fund focuses on investment in funds providing exposure to bonds (including corporate and government bonds), and to a lesser extent, funds investing in equities (company shares). The balance of the exposure between these different asset types may vary over time, however, equity exposure will usually not exceed 20% of the fund's value, under normal market conditions.

The fund may also hold money market instruments, deposits, cash, and near cash. Derivatives may be used with the aim of reducing risk or managing the fund more efficiently, and up to 20% of the value of the fund may be invested in funds that use derivatives for investment purposes. Derivatives are sophisticated investment instruments linked to the rise and fall of the price of other assets.

Fund features

This fund invests in assets which have the potential to produce stable and steady longer term returns. The returns are expected to be more stable and fluctuate in value far less than equities but as a consequence the returns are likely to be much lower. Over some periods of time the value of your investment can fall.

Asset split 1 (as at 31/07/2022)**

Global Fixed Interest	46.9%	
UK Gilts	20.0%	
UK Fixed Interest	12.1%	
UK Equities	5.2%

Things you need to know

We've based this information on our current understanding of law and practice. We make every effort to ensure that this information is helpful, accurate and correct but it may change or may not apply to your personal circumstances. Before taking any action you should always check with an appropriate adviser, as we cannot accept responsibility for any action taken on the basis of this information alone.

All funds carry some risk and you should consider these risks before making an investment decision. The value of investments and any income from them is not guaranteed and can fall as well as rise and will be reduced in real terms by the effects of inflation. The main factors which may increase the risk of this fund include:

- the split between government and corporate fixed interest,
- the extent to which the fund invests in high yield assets,
- the amount held in overseas assets.

On 10 April 2021, the underlying fund converted from a Unit Trust regulated under the 'Undertakings for the Collective Investment in Transferable Securities' (UCITS) rules to an Open Ended Investment Company (OEIC) under the 'Non UCITS Retail Scheme' (NURS) regulations. The investment and borrowing powers of the fund have remained the same.

Other charges which reduce the number of units you hold may apply. For further information please refer to your product Terms and Conditions.

For a more detailed explanation and other useful information about investments, please refer to our guide - "Making investments clearer - a guide for you", which can be found at www.zurich.co.uk.
