

We've written this fund factsheet assuming you have some experience of investing. This means that although we have tried to write as much as possible in plain language, we may have used certain words or phrases that might not be familiar to you, particularly if you are new to investing. Its purpose is to help you understand how the fund is invested and performing. You should not use it on its own for making investment decisions. It is not an offer to buy or sell any investments or shares. If there's something you don't understand, please contact your adviser. If you don't have an adviser, please call us, we can help you find one near you.

# Zurich Invesco Corporate Bond 1% AP

September 2022

## Fund objective

The Invesco Corporate Bond fund (the underlying 'Fund') aims to achieve income and capital growth over the medium to long term (3 to 5 years plus). The Fund invests at least 80% of its assets in investment grade corporate debt securities. In pursuing the Fund's investment objective, the fund manager may consider it appropriate to also invest in other transferable securities (including government, unrated and non-investment grade corporate debt securities), money market instruments, collective investment schemes (including funds managed by the Invesco group), deposits and cash.

The Fund may use derivatives for investment purposes to meet the Fund's investment objective and for efficient portfolio management purposes to reduce risk, reduce costs and/or generate additional capital or income. They may include derivatives on currencies, interest rates and credit, and may be used to obtain exposure to long and short positions. The Fund has an active investment approach based on fund manager judgment supported by macroeconomic and credit risk analysis, with an emphasis on valuation. Given the Fund's asset allocation, its performance can be compared against the Investment Association Sterling Corporate Bond Sector. However, the fund is actively managed and is not constrained by any benchmark.

## Fund features

This fund invests in assets which have the potential to produce stable and steady longer term returns. The returns are expected to be more stable and fluctuate in value far less than equities but as a consequence the returns are likely to be much lower. Over some periods of time the value of your investment can fall.

Unless held as part of a personalised portfolio invested to achieve an overall balance of risk and return, this fund is more suited for shorter-term investment. Investing solely in this fund for the longer-term may result in a lower return than a bank or building society savings account.

## Asset split 1 (as at 31/08/2022)\*\*

Global Investment Grade Fixed Interest	83.9%	
Global High Yield Fixed Interest	11.5%	
Global Fixed Interest	4.2%	
Money Market	0.4%	

\*\* Zurich sources its funds data from Financial Express. The date shown reflects the last available regional, sector and asset breakdown data provided by the fund's administrator to Financial Express. The timeliness of this data is affected by the speed and regularity of their publication by the fund administrator.

## Things you need to know

We've based this information on our current understanding of law and practice. We make every effort to ensure that this information is helpful, accurate and correct but it may change or may not apply to your personal circumstances. Before taking any action you should always check with an appropriate adviser, as we cannot accept responsibility for any action taken on the basis of this information alone.

All funds carry some risk and you should consider these risks before making an investment decision. The value of investments and any income from them is not guaranteed and can fall as well as rise and will be reduced in real terms by the effects of inflation. The main factors which may increase the risk of this fund include:

- the split between government and corporate fixed interest,
- the extent to which the fund invests in high yield fixed interest assets,
- the amount held in overseas assets.

Other charges which reduce the number of units you hold may apply. For further information please refer to your product Terms and Conditions.

For a more detailed explanation and other useful information about investments, please refer to our guide - "Making investments clearer - a guide for you", which can be found at [www.zurich.co.uk](http://www.zurich.co.uk).
