

We've written this fund factsheet assuming you have some experience of investing. This means that although we have tried to write as much as possible in plain language, we may have used certain words or phrases that might not be familiar to you, particularly if you are new to investing. Its purpose is to help you understand how the fund is invested and performing. You should not use it on its own for making investment decisions. It is not an offer to buy or sell any investments or shares. If there's something you don't understand, please contact your adviser. If you don't have an adviser, please call us, we can help you find one near you.

## Fund objective

The HSBC European Growth fund (the underlying 'Fund') aims to provide growth over the long term, which is a period of five years or more. The Fund intends to provide higher returns than the FTSE Developed Europe Excluding UK Index plus 2% per year over three-year periods before charges and tax are deducted from the Fund. To achieve its objective, the Fund will invest at least 80% of its value in the shares (equities) of European companies, including preference shares. European companies are those that are based in Europe excluding the UK or earn at least 80% of their revenue from Europe.

The Fund may invest up to 20% of its value in other assets, such as shares of non-European companies and cash. The Fund may invest up to 10% of its value in other funds, which may be managed or operated by the HSBC Group. Typically the Fund will invest in the shares of 40 to 60 companies.

The Fund is actively managed and is managed with reference to the FTSE Developed Europe Excluding UK Index.

## Things you need to know

We've based this information on our current understanding of law and practice. We make every effort to ensure that this information is helpful, accurate and correct but it may change or may not apply to your personal circumstances. Before taking any action you should always check with an appropriate adviser, as we cannot accept responsibility for any action taken on the basis of this information alone.

All funds carry some risk and you should consider these risks before making an investment decision. The value of investments and any income from them is not guaranteed and can fall as well as rise and will be reduced in real terms by the effects of inflation. The main factors which may increase the risk of this fund include:

- the amount held in overseas assets,
- any concentration in specific areas or sectors,
- the amount invested in property or property shares,
- the use of derivatives and other instruments with the aim of generating outperformance.

Other charges which reduce the number of units you hold may apply. For further information please refer to your product Terms and Conditions.

For a more detailed explanation and other useful information about investments, please refer to our guide - "Making investments clearer - a guide for you", which can be found at [www.zurich.co.uk](http://www.zurich.co.uk).
