This document is intended for use by individuals who are familiar with investment terminology. Please contact your financial adviser if you need an explanation of the terms used.

The SL CT UK Social Bond Pension Fund invests primarily in the CT UK Social Bond Fund. The aim of the CT UK Social Bond Fund is summarised below.

The Fund aims to provide income with the prospect of some investment growth over the long term (5 years or more), through investment in bonds that are deemed to be supporting and funding socially beneficial activities and development, primarily in the UK. The Fund is actively managed, and seeks to maximise its investment exposure to socially beneficial activities and development, based on assessments produced under the Fund's Social Assessment Methodology (developed by The Big Issue Group and Columbia Threadneedle Investments). The Social Assessment Methodology ensures that social impact considerations are integrated into the investment decision-making process. Investment is directed towards eight social outcome areas: housing and property; community services; education, learning and skills; employment and training; financial inclusion; health and social care; transport and communications infrastructure, utilities and the environment. Eligible Investments are assessed to establish an overall view of the investment's "social intensity". Some debt securities will have more direct and tangible social benefits than others, however those selected for investment are considered to have net positive impacts. A Social Advisory Committee regularly reviews the Social Assessment Methodology and the assessments carried out and may propose amendments or updates over time. An annual report is made available to investors which provides a summary of the Fund's social impact performance. The Fund may invest in bonds (usually investment grade) issued by international, public, private or voluntary and/or charitable sector organisations. Cash or near cash will be retained within the Fund for efficient management, and similarly deposits and money market instruments may be held for this reason. The Fund is not permitted to invest in derivatives for investment purposes, but derivatives may be used with the aim of reducing risk or managing the Fund more efficiently. Derivatives are sophisticated investment instruments linked to the rise and fall of the price of other assets.

The value of any investment can fall as well as rise and is not guaranteed – you may get back less than you pay in.

For further information on the CT UK Social Bond Fund, please refer to the fund manager fact sheet, link provided below.

	3 Months (%)	1 Year (%)	3 Years (%)	5 Years (%)
SL CT UK Social Bond Pension Fund	-7.7	-16.1	-15.1	-11.7
ABI Sterling Corporate Bond	-10.4	-22.1	-18.6	-11.8

Notes: The information shown relates to the past. Past performance is not a guide to the future. The value of your investment can go down as well as up. For the relevant charges on your policy please refer to your policy documentation.

Where a fund holds overseas assets the Sterling value of these assets may rise and fall as a result of exchange rate fluctuations.

Definition: Volatility Rating - The volatility rating of a fund indicates how much the fund price might move compared to other funds. The higher the volatility rating, the less stable the fund price is likely to be. You can use this to help you decide how much risk you're comfortable taking with your investments. Volatility ratings are calculated on a scale of 0-7.

Money Market - may include bank and building society deposits, other money market instruments such as Certificates of Deposits (CDs), Floating Rate Notes (FRNs) including Asset Backed Securities (ABSs) and allowances for tax, dividends and interest due if appropriate.
